PROJECTS

Hobby Dump — [Github](#), [Deployed App](#)

March 2021

A place where one can view other users posts for used hobby supplies. Once signed up and logged in, the user can make a post, and update or delete their own posts. Uses React, Express, Axios, Moment, Mongoose, Material UI, MongoDB Atlas, Firebase Auth and Heroku.

Keep Dreaming— [Github](#), [Deployed App](#)

January 2021

This app is designed to help you find the best travel destination based on your preferences of type, location, and budget. Uses MVC file structure, HTML, Handlebars, Express-handlebars, NodeJS, Javascript, Sequelize, Bootstrap and Heroku.

Taste The Music— [Github](#), [App](#)

November 2020

My first group full-stack project. This application inspires the home chef by pulling a random recipe and a song to go with it to keep you entertained while cooking. Uses HTML, CSS, JQuery, Bulma, Meal DB and Deezer APIs.
